

Teacher Earth Science Education Programme

Professional Development Workshop Series in Earth and Environmental Science

In association with the University of Melbourne,
TESEP presents PD Workshop 2

Riding the Climate Roller Coaster

The climate change workshop will:

- examine the geological evidence for climate change throughout geological time,*
- tease out how human-induced climate change can be differentiated from other mechanisms,*
- provide access to data and activities that will allow students to assess the claims about climate change for themselves.*

DATE & VENUE:

Friday 20 & Saturday 21 February 2009

Bundamba State Secondary College, Ipswich Qld

What TESEP offers teachers for FREE

- PD hours are accredited by ASTA (a certificate will be issued)
- introduction and guidance in Earth and Environmental Science
- run-through the topic, with experiments, demonstrations and activities
- half-day field trips and/or talks with industry geologists
- two nights accommodation for a three-day combined PD workshops
- one night accommodation for a two-day individual PD workshop
- meals, and up to \$100 petrol allowance
- access to trained presenters and geological professionals

A non-refundable* \$35 booking fee applies.

*The fee is transferable to another PD workshop or for another teacher to substitute.

Approval by your school principal, prior to registration is recommended.

(Note: casual relief teacher costs cannot be paid by TESEP)
